By David D. Vanderburg : Comparative Energy and Cost Analysis Between Conventional HVAC Systems and Geothermal Heat Pump Systems 82 air conditioning and refrigeration journal d january march 2011 cmyk cmyk 82 i n this second article on geothermal hvac we seek to explain how using save money and energy at home learn ways to save energy and use clean renewable energy technologies at home from the us department of energys office of energy Comparative Energy and Cost Analysis Between Conventional HVAC Systems and Geothermal Heat Pump Systems:

This is a AIR FORCE INST OF TECH WRIGHT PATTERSON AFB OH SCHOOL OF ENGINEERING AND MANAGEMENT report procured by the Pentagon and made available for public release It has been reproduced in the best form available to the Pentagon It is not spiral bound but rather assembled with Velobinding in a soft white linen cover The Storming Media report number is A797004 The abstract provided by the Pentagon follows To sustain the United States current affluence and strength
