0 of 0 review helpful Excellent guide to braces By TFLReader Our son is nearing the age where we need to start looking at getting braces for his teeth and no one is really excited about this I don t have fond memories of having braces as a teen he is pretty frightened about the whole prospect and the cost is pretty daunting We thought we would try to get educated before making appointments and found the book Brace Yo Over our years in orthodontic practice we have found that most people are excited at the prospect of having straight teeth and a beautiful smile Many of our younger patients are even excited about the idea of getting braces There are however those kids and adults that are wary of getting orthodontic care for a variety of reasons Many of these reasons are outdated from a time when orthodontics was much different than it is today With Brace Yourself The Ultimate About the Author Drs Matthew Courtney Dunn are husband and wife orthodontists with a private practice in Phoenix Arizona Both Drs Dunn are Past Presidents of the Arizona State Orthodontic Association and Diplomates of the American Board of Orthodontics
