Orthodontics: A contemporary review on the role of implants in orthodontics:

Anchorage control is the cornerstone of the orthodontic force system The first clinical report in the literature of the use of implants appeared in 1983 when Creekmore and Eklund used a vitallium bone screw to treat a patient with a deep impinging overbite Microimplants are an evolution are interdental implants which are endosseous implants but of smaller diameter which allowed placement in interdental areas were developed in the late 1990 rsquo s These rely more on About the Author Dr Aphale has presented published and won accolades in many state national and international level papers in various conferences and conventions He is a clinician par excellence maintains an exclusive orthodontic practice in Maharashtra Ind
