This book comprehensively draws the reader's attention to an inclusive description of corticotomy assisted orthodontic treatment that has steadily gained popularity as an adjunct treatment option for orthodontic treatment of adults. It further throws light on an increased soft tissue yield and hard tissue amends as a progression to the procedure. This procedure has the striking merit of inducing faster orthodontic movement, shorter treatment time, reduced relapsed. About the Author: After the Bachelors degree, Dr Prithiviraj completed his Masters in Orthodontics from Annamalai University in 1991. Completed Fellow in oral implantology from Switzerland.
